Customer Journey Map

Map out the student's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings while using AI StudyBuddy, along with process ownership and opportunities for improvement at each stage.

Persona / Customer: College Student – a student who wants to understand, revise, and organize academic study materials efficiently.

Phase of Journey	Stage 1 Upload Study Material	Stage 2 AI-Powered Learning Assistance	Stage 3 Study & Revision
Actions <i>What does the customer do?</i>	- Collects study notes/materials - Uploads study material to AI StudyBuddy	- Requests AI-generated summaries, flashcards, or quizzes - Reviews the generated learning content	- Studies the generated content - Uses quizzes and flashcards for revision - Follows the generated study plan
Touchpoint <i>What part of the service do they interact with?</i>	- Study material upload - AI StudyBuddy API	- Google Gemini AI processing - Summary / Flashcard / Quiz generation	- Generated learning resources - Study plan and revision support
Customer Thought <i>What is the customer thinking?</i>	"Can I easily upload my study materials?" "Will the system process my material correctly?"	"Will the AI-generated content be useful?" "Can this save my study time?"	"This makes revision easier." "I can prepare more effectively."
Customer Feeling <i>What is the customer feeling?</i>	- Slightly confused - Hopeful	- Curious - Relieved	- Confident - Motivated

Process Ownership <i>Who is in the lead on this?</i>	• Student / User • AI StudyBuddy API	• AI StudyBuddy API • Google Gemini AI	• Student / User • AI StudyBuddy learning system
Opportunities <i>How can we improve this stage?</i>	• Make material upload simple and user-friendly • Support commonly used study-material formats	• Improve AI response accuracy • Provide clear and well-structured summaries, flashcards and quizzes	• Provide personalized study plans • Add better progress tracking and revision support
