Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand the customer/user from four perspectives — what they Say, Think, Do, and Feel — in relation to the problem addressed by the AI StudyBuddy API. This helps the team build a customer-centric solution.

SAYS

- “I have a lot of study materials to read and revise.”
- “I need quick summaries and easy revision content.”
- “I want one platform to help me prepare for exams.”

THINKS

- “How can I understand lengthy study materials quickly?”
- “I wish I could automatically create notes, flashcards, and quizzes.”
- “I need a better way to organize my exam preparation.”

DOES

- Uploads study materials and notes.
- Reads, revises, and searches through learning content.
- Prepares summaries, flashcards, quizzes, and study plans manually.

FEELS

- Overwhelmed by lengthy study materials.
- Stressed when exam preparation time is limited.
- Motivated and confident when learning content is organized and personalized.

PERSONA NAME

College Student

(Role / User Type)
